THE ADVANCING CITY

MANY NEW HOUSES IN BUILDING; MANY NEW FOUNDATIONS BEING LAID

A notable improvement to a section in which there has been very little new building of late will be the two-story, eight-room house for which the foundation is now being laid at 621 South Columbus Avenue, corner of Penn Street, to cost $6000.

Manley M. Johnson's 7-room bungalow at 365 West Doran is now fairly under way. It is to be of hollow tile construction, cement surfaced, with patio. The double garage has already been put up. At 640 North Orange, Burkam A. Creer's 2-story residence to cost $6500, is just under way.

J. F. Stanford is having three five-room bungalows commenced at 439 and 443 Patterson Avenue and 432 Milford.

R. M. Morrow of 605 Milford has commenced the erection of a six-room bungalow at 516 West Milford to cost $4000. He is doing the work himself, with one assistant.

Dan Hunsberger has built a garage at 412 West California for the family to live in till he can build a house.

E. E. McQuivy is having a two-story four-room addition built to his residence at 451 Ivy.

Clarence O. Smith has just begun the erection of a six-room bungalow at 519 North Kenwood.

F. L. Peterson is having a five-room residence built for him at 416 West Wilson Avenue.

T. J. Fambrough is starting a six-room bungalow at 420 Myrtle.

It is amazing to note the great number of new buildings going up west of Columbus Avenue and north of Broadway.

Virgil Montgomery is having built at 126 West Eulalia a two-room house, one side of which is in the shape of a garage, in which to accommodate his family until he can build a real home.

Five tent houses, with board siding up six feet and canvas roofs, are in building at the corner of Palmer Avenue and Maryland Avenue. One is completed and occupied.

South Belmont is showing in the building activities of the day with a six-room bungalow just commenced at No. 123 for Mrs. Olive I. Nelson, and a three-room house at 127 for Mrs. Ethel Fay Last.

A five-room bungalow is well under way at 231 North Cedar for C. A. Lessard of 225 North Cedar, to cost $4000.

J. G. Ferguson has had a three-room portable house put up on his lot at 806 East Harvard, to serve as a temporary residence until he can build on the front.

ENJOY NEW YEAR'S DAY PICNIC

Mr and Mrs. Walter Stamps and children of 204 West Lomita Avenue, Dr. and Mrs. G. P. Lund of Los Angeles, parents of Mrs. Stamps, and Mr. L. Russell, wife and children of 322 Riverdale Drive, went up to Brent's Mountain Crags Resort, beyond Calabasas, for a New Year's Day picnic. This resort is away up in the mountains, yet only three miles from the ocean and in sight of it.

EAGLE ROCK WANTS OWN POSTOFFICE

Many citizens of Eagle Rock have petitioned the Board of Supervisors to assist them in getting back their postoffice, which was recently abolished, their mail being delivered from Glendale. Congressman Randall and Postmaster Harrington Brown of Los Angeles have been asked to aid in the attempt.

INDUSTRIAL DISTRICT

CAREFULLY PLANNED PROJECT FOR BUILDING UP GLENDALE NOW MATURING

At last night's meeting of the City trustees the Industrial Committee of the Greater Glendale Development Association presented a petition asking that an industrial district be set aside along the San Fernando Road, north from Colorado Street, the extent and boundaries of which should be determined later.

The committee has an option on ten acres lying just north of Colorado, along the San Fernando Road and comprising the old Learned ranch. An application is on file for an acre and a half site on this tract for a factory enterprise.

Prospects now seem bright for the consummation of the plans the committee has worked upon so long.

FOR BRIDE-TO-BE

SHOWER FOR MISS GRACE BEACH AT HOME OF MRS. L. B. SIMON

Mrs. Louise B. Simon 217 Hawthorne Street, entertained a party of 25 old Iowa friends Friday afternoon January 2, at a miscellaneous shower, in honor of Miss Grace Beach, who will soon become the bride of her son, Sidney M. Simon. An old time visit and sewing party was enjoyed, followed by light refreshments and many beautiful presents were showered on the bride-to-be. Those present were: Mrs. Ellen and Mrs. Charles McConnock, and Miss Grace McConnock, Mrs. Blanche Haskell and Mrs. George Pfoff of Pasadena, Miss Henry Lockey, Mesdames H. A. and Robert Martin, Robert Poole, Carl Hawkins of Long Beach, C. F. Bliven, Dorothy Thies and daughter, E. S. Omusby, Miss Venita Consigny of Los Angeles, Mrs. Marcia Hole and Mrs. Leona Rodgers of Venice, Mrs. Peter Black and Mrs. Bert Roberts of Michilinda, Calif., Mrs. D. W. Marston, Mrs. B. F. Kienillf, Miss Minnie Hollister of Marshalltown, Iowa, and Mesdames A. Beach and J. T. Beach, Misses Grace, Helen and Alice Gray Beach, Mrs. Helen Sayres and Mrs. Wm. Herman West of Glendale.

INDIAN GUIDE SEES HIGH LIFE

Reuben Gould, the Indian guide from Chester, Lassen County, who has been spending several days with A. L. Baird and Dr. T. C. Young, has added several new sensations to his experiences. He visited the Ince Film Studio a few days ago, was put in a picture and made much of. Friday he went up in an aeroplane for a flight over Glendale, which he enjoyed immensely. He expects to return home next Tuesday.

SCHOOL SITE

A mass meeting will be held in the auditorium of the Glendale Union High School this evening at 8 o'clock to consider three propositions in regard to additions to school grounds as follows:

First, to purchase all of the block east of the present site (bounded by Louise, Kenwood, Harvard, Colorado Boulevard) and 385 feet of Brand Boulevard frontage south from Harvard (comprising the ground from Harvard up to Masonic Temple) at an approximate cost of $116,000.

Second, to purchase the entire Brand Boulevard frontage from Harvard to Colorado Boulevard at an approximate cost of $94,500.

Third, to purchase the entire block to east of present site at an approximate cost of $75,000.

GREAT BUILDING PLAN

EAST SIDE OF BRAND NORTH OF BROADWAY TO BE DEVELOPED

A six or seven-story office building with the P. E. station occupying the first floor, to be financed by Los Angeles capitalists, has been planned and is practically certain of accomplishment and a party of Glendale business men headed by Roy L. Kent and Harry W. Chase has secured an option on and will take over the 300 feet of frontage north of this, comprising two two-story buildings of 75 feet frontage each, and seven one-story buildings. The whole tract will be improved by substantial buildings where necessary, thus bringing this vital portion of the business center of Glendale into harmony with the frontage on the west side.

CLASS PARTY

Boys in the Sunday School class of Mrs. Blake Franklin and an equal number of girls selected by the boys, were entertained Friday night at the home of their teacher and had a thoroughly jolly evening of games and music, refreshments being served at the psychological moment. The hostess was assisted by Mrs. B. E. Price. The function furnished an excellent occasion for the enjoyment of a program produced by the new musical instrument, the "Widdicomb," the first of its kind on this coast. It was a Christmas gift to the Franklin family from Wirt Franklin, who ordered it direct from the factory in Grand Rapids. It is quite different in shape from the Victrola, it is very sweet in tone and any make of records can be used upon it. The boys and girls entertained were: Max and Donald Price, Earl Van Dyke, Donald Franklin, Margery Yarrick, Helen Ingledue, Flora Kinney and Helen Wilson.

RADICAL RAIDS

MORE THAN 3250 PERSONS JAILED IN COAST TO COAST FEDERAL ROUND-UP

(Special Service to Glendale Evening News)

NEW YORK, Jan. 3.—A total of 3250 alleged radicals already were in jail in many cities of the United States shortly after daylight today as a result of the coast to coast federal round-up which was started last night.

Department of Justice officers here predicted that the arrests when finished would total around 4500. Chief Flynn of the secret service said he believed the backbone of the radical movement had been broken. The largest hauls in the east were: New York, 201; Detroit, 500; Chicago, 221; Philadelphia, 200; Buffalo 136; Cleveland, 100; Worcester, Mass., 77. Reports showed that arrests had been made in more than sixty cities.

SAN FRANCISCO, Jan. 3.—Radical raids conducted in various Pacific coast cities during the night yielded these results: Oakland, 19; Portland, 22; Fresno, 1; Seattle, 6; Los Angeles, 1.

CALLS HARRY NEW A "PARANOIAC"

ALIENIST AND U. OF C. LECTURER SAYS HE IS FEEBLE MINDED AND INSANE

(Special Service to Glendale Evening News)

LOS ANGELES, Jan. 3.—Dr. F. B. Hoag, a nerve specialist and University of California lecturer, testified today that Harry S. New, alleged murderer, is "an inferior person." He described New as a "psychological personality, or one who is unable to adjust himself to the ordinary stresses of life, a paranoiac," declaring that he has "dementia praecox," that he is "feeble minded and insane."

Dr. Hoag was called as an alienist for the defense. His testimony was given in a conversational manner and sparkled with sharp points.

"It takes very little ability to be a private in the army," he said in answer to one question.

"There are many men practicing law who are unbalanced," he told the district attorney at another point. "Yes, there are many doctors, too," he added.

He declared that Freda Lesser must have been a remarkable girl not to have realized New's alleged low mentality.

LEAGUE OF NATIONS MEETING

SUPREME COUNCIL AT PARIS AUTHORIZES PRELIMINARY CALL FOR FIRST SESSION

(Special Service to Glendale Evening News)

PARIS, Jan. 3.—The Supreme Council of the Peace Conference today authorized Premier Clemenceau to issue a preliminary call for the first meeting of the League of Nations and to direct President Wilson to issue a formal call as soon as the Versailles treaty is effective. The indications now are that the treaty will not be formally ratified before January 13.

INVESTIGATING LEIGHTON'S IDENTITY

DEAD CRIMINAL MAY HAV7 BEEN SHIRTLEFF, FAMOUS DIAMOND ROBBER

(Special Service to Glendale Evening News)

LOS ANGELES, Jan. 3.—Finger prints and a description of Lee Thomas Leighton, alias Norwood, killed here a week ago by gangsters, were sent to the Omaha police today in an effort to determine whether Leighton is Frank Shirtleff, the famous diamond robber. The police at first were convinced that Leighton could not have been Shirtleff but said today that they had information which left them undecided on the point.

"Leighton may or may not have been Shirtleff," Detective Taylor said. It now depends on what the Omaha police uncover.

WORKINGS OF BOLSHEVISM

SENATE RECEIVES COMPLETE REPORT OF ACTIVITIES THROUGHOUT THE WORLD

(Special Service to Glendale Evening News)

WASHINGTON, Jan. 3.—The Russian Affairs Division of the State Department today presented the Senate Foreign Relations Committee with a report comprising a complete revelation of the dangerous workings of Bolshevism throughout the world. The report shows that Moscow directs all Bolshevik activities. It is expected the document will be given out for publication soon.

This afternoon's reports of the Department of Justice show that over 4500 radicals are now under arrest in many citiese. The arrests are continuing.

The Department said that complete evidence against over two thousand of those now under arrest is already in possession of the federal authorities.

It is expected that ninety per cent of those arrested either will be deported or convicted of criminal anarchism and the use of violence to overthrow the government.

TRUSTEES' MEETING

ROY L. KENT PRESENTS INDUSTRIAL DISTRICT PLANS TO BOARD

The Board assembled at 8 p. m. January 2, 1920. All members were present. The minutes of the regular meeting of December 26, 1919, were read and approved.

The hearing called for the consideration of the matter of the application of the Standard Oil Company for permission to establish a station at the intersection of San Fernando Road and Riverdale Drive was taken up at this time. In connection with this matter the City Manager presented a written communication in which he stated that he had endeavored to ascertain the sentiment of the residents of Riverdale Drive in regard to the project and found them generally opposed to having a station established at that location. On notice of Trustee Henry, the request for permit was denied.

Roy L. Kent presented a written communication in regard to an Industrial District. It was stated in the communication that Mr. Kent, as chairman, and a number of other citizens, acting as a committee of the Glendale Development Association, has secured options on ten acres of land on San Fernando Road, north of Colorado Street, on the north. The communication stated further that the committee would be glad to confer with the Board of Trustees as to the exact boundaries of the proposed district, and would appreciate the early passage of the ordinance creating such an Industrial District. On motion of Trustee Shaw the communication was referred the City Attorney to advise the Board as to the legal authority of the board to take the action requested.

Mr. Robinson appeared before the Board and spoke in reference to the present license ordinance as applying to transfer companies, which occasionally haul passengers; requesting that the Board provide for some modification of the ordinance. On motion of Trustee Shaw, referred to the City Attorney to see if the ordinance can be amended so as to cover the case.

The hearing in regard to the application of Mr. Stivers for permission to remove certain trees on his property on Riverdale Drive came up at this time. No protest having been received in regard to the matter, a motion made by Trustee Woodberry, was adopted, granting the permit to remove the trees, but not for the use of dynamite, as is also requested in the application.

Demands were presented and referred to the Finance Committee.

City Manager

The City Manager submitted a written report in regard to the application of A. L. Friedman for permission to install a curb pump on San Fernando Road between Eulalia and Los Feliz Road, which had

THIEVES ARRESTED

BOYS WHO STOLE GOWNS FROM HOME OF MRS. TRAFTON IN CUSTODY

Friends of Mrs. Sallie Braden of 204 Arden Avenue will be glad to know that the handsome gown of chiffon velvet belonging to her which was at the home of her dressmaker, Mrs. Trafton, on California Avenue, and which with two other handsome new gowns was stolen New Year's night, has been recovered. The two thieves—boys who will be under the jurisdiction of the Juvenile Court—were arrested at Burbank Tuesday about noon by Officer Purrier and are now in the county jail. According to the record made up from the information given by them, they are Pedro Isabel Martinez of Beaumont, Cal., aged seventeen, and Joe Beruman of 361 Lorena Street, Los Angeles.

Mrs. Braden has been advised that her gown is in good condition, and she expects to soon recover possession.

Mrs. Braden entertained with a 6 o'clock dinner New Year's Day, at which covers were laid for Mr. and Mrs. J. T. Fitzgerald, Mr. and Mrs. T. R. Welch and Miss Barbara Furton of Los Angeles, Mr. and Mrs. Jack Allen of Corvallis, Ore., and Miss Rica Mayer of San Francisco. The table was centered with poinsettias and the same color featured the favors and other special appointments. Following the dinner a pleasant social evening of music and conversation was enjoyed.

ELECTRIC PARADE

GLENDALE'S MUNICIPAL FLOAT MAKES NIGHT TOUR OF BROADWAY AND BRAND

So great was the desire on the part of Glendale citizens for a near view of the float which won first honors in the Pasadena Tournament of Roses that city officials decided to qualify it by exhibiting the beautiful thing Friday night, electrically lighted, in a tour of Broadway and Brand.

It left Fire Station No. 1 about 8 o'clock, driven by Ed Hambley of the fire department and headed east on Broadway for Glendale Avenue, then returned on the same street to Brand, turning south and driving to San Fernando, returning on Brand as far north as Doran and then back to Broadway and to the station. Glendale is fortunate in having resourceful and competent officials ready to spend themselves in promoting the honor and pleasure of the community, also in its public spirited citizenship. Without this combination the night exhibit would not have been possible; but two storage batteries and ten 32-candlepower electric light bulbs loaned by the Newton Electric Company and one battery by the Willard Company solved the problem and furnished the illumination under which the wonderful picture in relief was most beautiful. Heralded by horns, it attracted attention and enthusiastic admiration wherever it made its appearance, in fact nothing of a civic nature that has been done in recent months has created more general satisfaction judging by public expressions, than this lovely creation by city employes backed by the business men of the city.

PLAYERS' CLUB

FULL LIST OF COMMITTEES APPOINTED AT MONDAY'S BUSINESS SESSION

An informal meeting of the Players' Club of Glendale took place Monday evening in the Guild Hall of St. Marks' Church, at the close of the annual parish meeting. Several new members were admitted and final arrangements were completed for the "Twelfth Night Revels" (masquerade costume dance) to be given by the club next week. According to the reports turned in the announcements already made of the club's plans are arousing much interest in the community. The secretary reported that invitations had been sent to all members of the parish and that similar invitations would be sent to all friends of the parish whose names were furnished her.

The following ladies were named as members of the reception committee: Mrs. Lamont Greene, Mrs. Le Roy Bosserman, Miss Ellen Williams, Mrs. Phil Bernays, Mrs. D. Ripley Jackson, Mrs. D. W. Hunt, Mrs. H. W. Kalston. Mrs. R. H. Wells was nominated to take the place of Mrs. Eustace Young (called out of town) in assisting on the refreshment committee with Mrs. Harry Peterson. Several members of the choir are assisting on this com-

(Continued on Page 6)

CHAPTER B. A. MEETS

UNUSUALLY FINE PROGRAM MARKS HOLIDAY SESSION OF P. E. Os.

Chapter B. A. of the P. E. O. met Tuesday at the home of Mrs. Williams at 208 South Orange Street. A delicious "covered dish luncheon" was served at noon following a business session at which two candidates were initiated—Miss Dorothy Williams, daughter of the hostess, and Miss Carol Willisford.

The afternoon program included a quiz on the constitution of the order. Members lined up as if for a spelling bee and the one who gave the largest percentage of correct answers won the prize.

A fine symposium on our national songs was conducted by Mrs. R. M. Brown, who had asked members to be prepared to give the story of such songs, a verse of each being sung. The songs considered were: "America," "Star Spangled Banner," "Hail Columbia," "Battle Hymn of the Republic," and "Columbia, the Gem of the Ocean."

Mrs. Walter Stamps then gave an interpretation in costume of the amusing skit, "Mirandy on the Baby Question."

EGG SUBSTITUTES

The United States Department of Agriculture has gone to considerable trouble to advise housewives that egg substitutes are of no aid in baking. Most of these egg substitutes consist essentially of starch or powdered cereal products, such as wheat flour, sometimes artificially colored yellow to imitate the appearance of eggs. The consumer generally pays about six cents an ounce, or at the rate of one dollar per pound for this misleading article. It is generally claimed that each package will take the place of from twelve to forty-eight eggs. Unfortunately, they do not perform the work of eggs in baking or cooking. Housewives who purchase these egg substitutes are merely making themselves victims of misrepresentation.

WRECK NEAR ST. JOSEPH, MISSOURI

CHICAGO, GREAT WESTERN TRAIN COMES TO GRIEF NEAR SAVANNAH; NO ONE KILLED

(Special Service to Glendale Evening News)

ST. JOSEPH, Mo., Jan. 3.—Several persons were injured today when a Chicago, Great Western railroad train was wrecked near Savannah, eighteen miles from here. No one was killed. The injured are being brought to St. Joseph.

531,210 AUTOMOBILES

CALIFORNIA HAS JUMPED FROM FIFTH POSITION TO THIRD IN NUMBER OF CARS REGISTERED

Radical changes in the comparative standing of the various states in automotive registrations for 1919 is shown in a national tabulation of the registration just completed by the Automobile Club of Southern California in Los Angeles.

With New York State still leading, California has jumped from fifth position to third, while Ohio maintains its position as second on the list.

Illinois, it is indicated, slips back from third position to fifth, and Iowa stands in its old position at sixth place.

This data is compiled from telegraphic reports received during the past four days from every state in the Union by the Automobile Club upon special request, and the complete returns are of the date of December 26, only five days from the close of the year. Any subsequent changes will not affect the standing of the states.

It is the most complete and authentic list of national registration ever compiled, and will become a feature of the Auto Club's service in its information bureau, annually, according to Secretary Mitchell.

California, with a population estimated at slightly in excess of 3,000,000 or only about half that of New York City itself, is a close competitor of the Empire State, and bids fair to top the list next year, according to official opinions here, on account of the sturdy climb of automobile ownership on the coast.

In this state it is shown by the latest reports from Sacramento that the gross registrations, including everything automotive, total 531,210. Net automobile registration total 492,000, or an increase of 141,000 over last year. The net increase last year over the year before was only 45,057.

The total national increase in automobile registration has fallen below that of 1918. The gain this year has been 970,455, while that of the previous year was 1,004,162.

But the slight decrease is considered remarkable in view of the fact that production was believed, before this list was compiled, to have been curtailed to a much greater extent.

California, it is shown, leads in the number of automobile dealers registered, topping the list, and exceeding New York State by 539.

What Kind of a Car Do You Drive?

We are interested, of course, but it really makes no difference in the way we can serve you. We are here to be of assistance to the man who owns a car—any kind of a car.

Our Slogan

"Everything for the Automobile"

Means Just That

——it means gasoline from a "visible" pump, you don't have to take the word of the man who sells the gas.

——it means Goodyear and United States tires and tubes, the most complete stock ever shown in Glendale.

——it means retreading, good retreading that really pays.

——it means Auto Theft Signals; they protect your car and give you a feeling of security.

——it means Bumpers, Lenses, Robes, Driving Gloves, Tools, and Mechanics' Supplies, Ignition Parts and Brushes, Coveralls, Polishes, Etc.

1920 AUTOMOBILES

THE GROWING USE OF AUTOMOBILES INDICATES BIG YEAR FOR 1920

Judging from the increased use of automobiles the past year there is reason to believe that the incoming year will make great strides in the automobile world. The time has come when there are many makes of good cars, and when a man goes out on the market to purchase a motor car he gets just what he pays for, and no less or no more.

An inferior motor can not continued to be manufactured and find buyers. The buying public has become too well informed as to the essentials of a good motor car. The manufacturer employs skilled mechanics who from years of experience know how to make all adjustments in assembling the parts, and the owner of a car who is slow to make changes from the factory adjustments is the man who will have the least trouble with his car.

The 1920 motor cars are coming from the factories in excellent condition. All parts are adjusted as they should be and no inexperienced auto repair man should be allowed to change these adjustments. All necessary changes should be made by a skilled mechanic who thoroughly understands what he is doing.

The time has come when owners of automobiles have learned that it pays to take good care of their cars. A car is an expensive piece of property to the extent that it is neglected. Avoid driving a car over rough roads whenever possible. Avoid driving over muddy roads and avoid getting moisture or dampness on the parts of the automobile that will corrode and rust by the presence of such moisture or dampness. Be careful to have your garage floor free from water, as the moisture arising from the evaporation of the water will rust parts of motor and bearings of the car.

The 1920 automobile should be kept clean. The very fact that you kept your car clean will indicate that you appreciate its value. The horse man who keeps a horse well groomed is a lover of horses, and so it is with the man who keeps an auto in good shape he is a lover of machinery.

FORD EAGLES

WOULD HAVE PROVED FORMIDABLE HAD THEY BEEN PUT IN SERVICE

Although the war is forgotten by most of the public and has been consigned to the history makers, business is just beginning the end of war work. It is just beginning the switching of war work buildings to peace work.

The Ford "Eagle" boat 60—the last one to be built by the Ford Motor Company, under its war-time contract with the Navy department—has been launched at the River Rouge, Detroit, yard, and the long assembling building which is a third of a mile long and housed twenty-one of the submarine chasers at one time, is already being transformed into a body plant with an output of 500 bodies daily.

The "Eagles" were designed particularly to carry the submarine detecting devices or "listeners," according to information received by B. L. Graves, manager of the L. A. branch of the company, upon the changing of the "Eagle" plant to a body plant. They also carried depth bomb protectors and three-inch guns with which to combat the U-boat when it had been found by the "listeners." They are noiseless in operation, light, speedy and could make a quick getaway. Had the submarine destroyers been called into service—which only the signing of the armistice prevented—they would have operated in sets of three.

Commander Nicholas, stationed at the Rouge yard, said he knew of no statement or report issued by the Navy Department relative to the merits of the "Eagles," but that they have performed remarkably well on their trial trips and all tests given them just before leaving the Ford yard, and that had they been called into actual service, they would have proven a very formidable enemy.

CHURCHILL HAS ONE

The Ford may be cheap in price, but it is not a cheap man's car. That is certain, according to L. B. Groves, assistant manager of the Los Angeles branch of the Ford Motor Company, as a report from the Ford London office plainly shows . When Winston Churchill, England's Secretary of War, became interested in the British "Campaign for Economy," he indorsed it with true sincerity and because of that sincerity, he decided his Rolls Royce must be replaced by the most economical car made. So he cast about in search of one that would be low in purchase price and low in upkeep. The makes of cars bearing those virtues were few. Lord Churchill finally found and bought one. It was a Ford.

Death won again when Bob Perry was killed qualifying for the Ascot races yesterday.

EXCEPTIONAL MILES

This sturdy Roadster is constructed to deliver travel-miles as reliably and economically as they can be delivered. Consequently owners call attention to long periods of unfailing service and say they get 18 to 25 miles to the gallon of gasoline and 8,000 to 12,000 miles from tires.

Touring Car, $1250; Roadster, $1250; Coupe, $2045; Sedan, $2045. F. O. B. Glendale, Calif. Additional for wire wheel equipment, $75.

THE PREST-O-LITE

INNOVATION OF GREEN SEAL WAS IMPORTANT DEVELOPMENT

That the dawn of the 1920 brings with it an increased demand for the new Prest-O-Lite Green Seal battery has already been brought home to dealers all over Southern California in the number of orders that were placed for early January delivery. The motoring public, evidently has accepted the Prest-O-Lite Green Seal as the most logical battery for the modern motor car and has fairly stampeded the market in buying this one make.

That the innovation of the green seal feature was one of the most important battery developments of the past year is an accepted fact among battery men of the nation. It has put the battery business on a new foundation, revolutionary in its effect, but recognized the greatest improvement since the invention of the storage battery.

The green seal feature is simply this: Prest-O-Lite engineers after careful experimentation and rigid tests found that it was practical and possible to manufacture the Prest-O-Lite and ship from the factory without acid, chemicals or water. This is where the name "green" comes in. The battery is kept "green" until it is ready for use. It is virtually made the same day that it is put in the car.

Before the invention of the green seal idea by Prest-O-Lite engineers these batteries, like all others, were made at the factory, filled with acid and shipped to theshrdl shr sh sh and water and shipped to the distributors. The result was that from six to nine months elapsed between the date of manufacture and the date that the battery was first put into the user's car. During all these months the battery stands idle on a dealer's shelf, the action of the acid on the plates has a deteriorating effect on the vitals of the battery which is one of the primary reasons that so many apparently new batteries "wear out" in such short time. The fact of the matter is that they were six to nine months gone when they were first put into your car.

As the motorists learns the distinction and superiority of the Prest-O-Lite green seal battery he, of course, insists upon this improved battery, realizing that it is guaranteed to him by the oldest service to automobile drivers in the United States.

BREAK PRODUCTION RECORD

The Ford plant has broken another production record. Long ago that was thought impossible because the Ford plant has already broken production records with such regularity that their own existing records have been boosted so high it seemed humanly impossible that they should again be broken.

Production figures for October, 1919, just received by B. L. Graves, manager of the L. A. branch of the Ford Motor Company, however, show that not only has the Ford plant broken its own tremendous production record but broken it by a large margin, a margin that in itself is equal to the production records of most plants and greater than many.

When the record of the Ford plant is considered in connection with the records of other plants in recovering from the war work, it appears truly remarkable. Very few other plants have been able to reorganize their factories for peace production and practically all of them are still behind their ordinary production figures.

~like the Power Plants at Niagara

—these great power plants would be powerless, were it not for the great natural force of America's greatest cataract. They would stand lifeless—quiet—dead. But turn into them the plunging force of Niagara—they leap into life—a thousand wheels begin to turn.

It is the same with the Prest-O-Lite Green Seal Battery. It comes to us from the factory merely a "shell." Only when the chemicals and the acid are added does **life** come to it. It is **born** the day you put it in your car.

The NEWEST Battery With The OLDEST Name

its green

The Prest-O-Lite Green Seal Battery is the "newest battery with the oldest name," the latest development of the oldest service-to-automobile-owners in America.

Whatever battery you carry—our service is at your disposal.

Ford

THE UNIVERSAL CAR

Full and Running Over

Our stock rooms are full of Genuine Ford Parts. We have an assortment of parts that would enable us to build either a Ford passenger car or a Ford One Ton Truck from the ground up. Then, too, those parts are Ford-made—each according to its use—so that they are exact duplicates of the original parts now in your car, and will give the same constant, hard wear.

Our shops are equipped with up-to-the-minute tools and machinery, specially designed, so that we can properly and promptly take care of your repair work—from a minor adjustment to a complete overhaul. And the mechanics who will do the work for you are men who understand the Ford mechanism and who know the Ford way to do the work.

We are Authorized Ford Dealers; we not only give Ford service, but we sell Ford cars and Ford One Ton Trucks as well. So, it is easy to understand that we have more than a passing interest in your car. Drive to any of the following garages for Ford parts, Ford Service or Ford Cars—Come to authorized Ford headquarters and be on the safe side of dependable repairs.

OTHER STATE CARS

CARS BEING SHIPPED FROM FOUR CORNERS OF EARTH TO SO. CALIFORNIA

Appeasing an apparently insatiable desire for foreign touring, motorists of Southern California are shipping their cars for pleasure purposes to the four corners of the globe.

Never before in history have automobiles, for pleasure touring been shipped to such out-of-the-way places as at present, according to a report issued from the forwarding department of the Auto Club of Southern California.

There have been shipments within the past two weeks for Bombay, India; Christinia, Norway; Liverpool, Skagway, Alaska, Tokio, Hong Kong, and Melbourne, Australia.

According to the testimony of those shipping their cars, they went to compare the road systems of other countries with that of the southern part of this state, and they haven't much hope of finding any that will be better, or nearly as good.

STATE NEWS

SAN DIEGO, Cal., Jan. 3.—(By United Press).—Thirsty Americans may now offer up paens of praise for the far-sighted engineers who built the San Diego and Arizona railway.

For a trip over it offers a chance for a drink.

Twice on its winding route from San Diego to Yuma, Ariz., it crosses from the parched prohibition precincts of the United States into Lower California, where the festive highball may be gurgled with fearlessness and abandon.

Of course it crosses back to dry land once more, but tickets are plentiful and a return trip can be made. So why worry?

Success of the new road seems assured.

LOS ANGELES, Cal., Jan. 3.—(United Press).—The state community property law, passed by the last legislature, has been declared unconstitutional by Superior Judge J. C. Rives of Los Angeles county, and has gone to the supreme court for a test.

The law provided that upon the death of a husband or wife the surviving spouse received one-half the property and the other half was subject to distribution by will. If no will were left, then all of the property would go to the surviving member, without the necessity of having an administrator appointed.

Judge Rives declared that the law is unconstitutional because administration of an estate is necessary to protect the rights of creditors and determine interests of other possible heirs.

SAN FRANCISCO, Jan. 3.—(United Press).—Ever hear of air-fishing?

"You hear a lot about the adventures of these aviators, but I'll wager none of them ever went air-fishing," said Private Jack Barrows of the Marine Corps, who re-enlisted at the recruiting office here, 320 Market Street, after several years in the islands.

"When I was in Northern Luzon I used to see the Igorotes flying queer looking kites every evening about dusk. I could never quite savvy their idea; they are a shy sort of people. As soon as they saw me watching them they haul down their kites and move off.

"One evening I hid myself, and found out all about air-fishing. I noticed that every kite had a baited hook at the end of its tail. I saw one igorote haul in on his line and take some living, fluttering thing off the hook. I crawled closer and discovered it was a large bat. They were fishing for bats in the air."

TOKIO, Dec. 11. (By Mail to United Press).—General Charles H. Sherill, former American ambassador to the Argentine, in a speech at a dinner of the American-Japan society held at the Bankers' Club, advocated a "ladies' agreement" to supplement the "gentlemen's agreement" with the Japanese government.

"When Chinese laborers were numerous in California, it was unsafe for a Chinese to walk abroad at night," he said, "but since Chinese immigration has been suspended, the economic cause of friction being thereby removed, the Chinese was very popular in that state.

"My investigations convince me beyond doubt that the Japanese government has loyally lived up to both the spirit and the letter of the 'Gentlemen's agreement. But that agreement ought to be supplemented by a 'Ladies' agreement,' because of the loyal adherence of your government to the 'Gentlemen's agreement' is being offset by the numerous picture brides' going from Japan to Japanese laborers in America.

Their coming imperils our relations more than you realize, and for reasons difficult for you to understand."

A printer's mistake spoiled $580,000 worth of road bonds recently voted by Ventura county and the bonds had to be burned. New ones will have to be printed before the money can be secured. What they said to the printer is not publishable.

Labor can not inflict any injury upon the public that will not react against itself. The same is true of capital and of any other element. And how easy it is to lose sight of this immutable fact.

PARTY FOR MICHIGAN FRIENDS

Mr. and Mrs. S. E. Blatchley of 218 North Central Avenue gave a New Year's party at which several of their friends from Michigan who are spending the winter in California were entertained. Poinsettias and greenery were used for the decoration of the living rooms in honor of the event. Guests were: Mr. and Mrs. Arthur Webster of Jackson, Mich., Mr. and Mrs. Arthur Gaight, of the same city, Edwin Thompson and daughter, Lola, of Spring Arbor, Mich., Mr. and Mrs. A. F. Parmeter of Hollywood, and Mr. and Mrs. John Post, also of Hollywood. After refreshments had been served and musical numbers enjoyed, Miss Lola Thompson was invited to rehearse some of the selections for which she was noted at Spring Arbor Seminary.

Mrs. Laura Weaver of 402 East Harvard Street has been confined to her home for about a week with a neavy cold.

Personals

Thos. Prince, who recently bought the property at 410 Vine Street, formerly owned by H. W. Faacks, has added a room to the house and otherwise improved the premises.

John Butler, a former resident of Glendale, but now living in Redlands, visited his sons, Ernest and John R., on Milford Street, during the holidays.

Harold Heacock of Compton visited his grandmother, Mrs. M. E. Timmons of 325 East Windsor Road, and some of his boy friends Wednesday and Thursday.

Ernest Butler recently returned from a two years' residence in San Diego and is again occupying his own home, Milford Street, west of Pacific Avenue. He is engaged in the cement business.

Mrs. R. McBride, who recently bought from Mrs. Lewis the place at 737 South Maryland Avenue, corner Windsor Road, has remodeled it and improved the whole building with a coat of paint.

Mrs. Frederick D. Warner and two children arrived by boat from Seattle last Friday and will spend the winter in Glendale. They have taken the apartment owned and lately occupied by Mrs. N. W. Terrell at the corner of Chestnut and Brand.

Glendale is becoming a regular checker board in which the moves are brisk and many. Among those who have recently figured in the game are Mr. and Mrs. Tom Furst, who have sold their home at 1231 East Harvard Street and purchased a substitute at 535 West Oak Street, where they are now living.

Mrs. W. E. Guilford, sister of Mrs. L. B. Simon of 217 Hawthorne St., has returned to her home in Tampa, Fla. On her homeward trip she will visit her son, Lieut. C. H. Guilford, at Langley Field, Hampton, Va. Lieut. Guilford has charge of the installation of wireless telephones in the airplanes at Langley Field.

Mrs. Sadie Parker of 102½ South Orange Street entertained at dinner on New Year's Mr. and Mrs. Robert Cline, and son, Robert, nephew and niece of the hostess, and Mrs. Louise B. Simon. Mr. and Mrs. Cline are visiting California for the first time and expect to remain until the middle of January, when they will return to Sault Ste. Marie, Mich.

Mr. and Mrs. Henry Koepke, residing for the past year at 1315 South Central Avenue, have had the pleasure of entertaining their two sons, Arnold H. and Henry, Jr., during their holiday vacation. The young men left last evening for Eugene, Ore., where they attend the University. On their way north they expect to spend a day with their brother, Dr. F. H. Koepke, who lives at Watsonville, Calif.

Dr. and Mrs. E. A. Clay of San Francisco, who have been visiting Mr. and Mrs. Paul Kugler of 220 North Orange Street, left this morning for San Francisco. They are motoring north and with them are Mr. and Mrs. R. Clay of Los Angeles who will be their guests for a week before returning to the Angel City. Mrs. Kugler's mother, Mrs. C. M. Roach, who has been her guest during the holiday season, is returning to her home in Long Beach tomorrow.

Wednesday afternoon between 4 and 5:30 o'clock, members of the "Pierce Arrow Class" of the Tropico Presbyterian Sunday School, who are all little boys and girls, were entertained at the home of their teacher, Mrs. Storer, who was assisted by the Sunday School Superintendent, T. W. Angier, and a few of the older girls of the school, viz., Elaine Francis, Frances Goldsborough, May Sullivan and June Goto. The class is engaged in a contest and was supposed to have reached Reno on a cross country run from San Francisco to New York.

Quite a group of Glendale people was entertained delightfully by Mrs. J. W. Meyers of 112 East Mountain Street, Pasadena, at a mid-day luncheon served after the passing of the parade on New Year's Day at her pretty home. Covers were laid for Mr. and Mrs. R. P. Isitt, Mr. and Mrs. J .T. Crampton, their daughter, Miss Grace Crampton, Mr. and Mrs. C. R. Hallett, Mr. and Mrs. Charles Miller, Mrs. Mary E. Flynn of Los Angeles, Mrs. W. C. Hildreth of Manzanar, and the hostess, who is a sister of Mrs. Crampton. The guests remained for a pleasant social afternoon and evening.

Lieutenant Walter Hawkins will be in Glendale Saturday, Sunday and Monday. In the big new army Curtiss aeroplane which the lieutenant is using he has taken up more than two thousand passengers during the past six months and has made flying trips all over California. His partner, Mr. George C. Freeman, has charge of the motor of the plane, and is responsible for its mechanical condition. He now has a landing station on a field about two blocks south of San Fernando Road, west of Brand Boulevard, and the lieutenant says he will be glad to see there any Glendalian who desires to inspect the ship or to answer any questions in regard to it. He is going to make flights Sunday "on his own hook."

GRACIAS

I have a heart full of thankfulness today, for all the blessings of the past year—I believe I have had my full share.

Of all the joy from my work, however, I prize most the confidence of those of you whom I have persuaded to secure the protection afforded by our great company. Your friendship and abiding faith will be a source of increasing happiness to me as time goes on, and I trust I may be able to continually render a larger service.

With the hope that the year on which we have now entered may prove to be the best of our lives—financially, socially, and spiritually,

Faithfully yours,

W. B. Kirk

FOSTER BRIDGE CLUB

Members of the Foster Auction Bridge Club were entertained by Mrs. C. E. Norton of North Maryland Avenue Friday at a beautifully appointed mid-day luncheon followed by an afternoon over the card tables where Mrs. A. A. MacIntyre made high score. Present were Mesdames W. W. Ramsay, W. B. Crocker, Walter Jones, Helen Campbell, A. A. MacIntyre, Maurice Bondeau, A. H. Montgomery, John Robert White, Mabel Rudy, Charles Parker, C. E. Norton and Mrs. Hillyard.

194 MEMBERS

A meeting of the Executive Board of the Cerritos Avenue P. T. A. was held on Wednesday, December 31. A movement to install a film projector so that the children in this community may have the benefit of the many entertaining and educational films is about to be launched. The interest and support of each member of the association is desired, and it is hoped that very soon the project will be carried to successful realization.

Mrs. Blair, the membership chairman, reported a membership of 194.

Fathers' night is being planned for Monday night, January 19.

KNIGHTS AND LADIES

GLENDALE COMMANDERY ENTERTAINS MEMBERS OF GLEN EYRIE CHAPTER O. E. S.

Members of the Glendale Commandery, Knights Templar, welcomed the new year with a gracious and beautiful courtesy to the members of the Glen Eyrie Chapter of the Eastern Star, whom they entertained on the last night of the year. The guests were received with due ceremony by a reception committee.

Paper caps and hats were bestowed upon the ladies as favors and to the gentlemen were given head bands with a feather in them. These they exchanged with the ladies, thus securing their partners for a grand march around the room.

Following that exercise the company was entertained with a mock trial in which Commander Dave Crofton was called upon to defend himself against the charge of being faithless to his vows as a chapter member of the Eastern Star. Dr. Jessie Russell had the role of judge, C. L. Peckham, past eminent commander, personated Prosecuting Attorney Woolwine, Mr. Worley was "Le Compte Davis," the jury was headed by Mrs. Daniel Campbell in the character of Bridget MacGreggor as foreman. Other members were Mrs. A. M. Beamon, Mrs. Peckham, Mr. Ravenscroft, Mr. Von Oven and a visiting past eminent commander, who took the name "Harry New." Mr. Von Oven was "Jim Corbett," Mrs. Peckham was "Lillian Russell." The examination and cross examination of witnesses yielded no end of fun. When the trial ended in the vindication of the accused, a series of informal stunts were performed by talent present and then the guests amused themselves with dancing and card playing or in visiting together.

At five minutes before twelve, as is the custom of the order the world over, the Knights began and finished the year with prayer, first a silent petition, then a prayer by Chaplain Von Oven, all uniting at its close in repeating the "Lord's Prayer." Congratulations and exchange of good wishes followed. Then Commander Crofton made a nice talk in which he voiced the pleasure experienced by the commandery in entertaining the "Stars" whom he thanked for responding as they had done. At the request of the worthy matron, Mrs. Daniel Campbell, past grand chaplain, responded for Glen Eyrie Chapter, expressing its appreciation of the recognition thus given it by an allied Masonic Order.

The guest list numbered 200 to 250 persons, and it was one of the most delightful Masonic social functions that has ever taken place at the temple.

PROGRESSIVE PARTY

NOVEL FUNCTION MARKS CLOSE OF SUNDAY SCHOOL CLASS CONTEST

The close of a contest between the girls of the I. C. O. class and the boys' class of the Tropico Presbyterian Sunday School was marked by a rather unusual party given by the girls—who were losers—in honor of the winning males Friday evening. It was a progressive affair designed to represent the four seasons of the coming year, which is leap year, and through which the girls proposed to leap as rapidly as possible in this little function. It opened with a winter scene at the home of Miss Helena Richardson on Brand Boulevard where corn was popped and games were played around the fireside. An adjournment was taken in about an hour to the home of Miss Helen Searle on Cerritos Avenue where spring was suggested by playing "pack your grandfather's trunk" for the summer vacation. As the boys had prophesied that they would get nothing by way of refreshments except water and toothpicks, their challenge was met by giving that refreshment alone at this stopping place. The next journey for the good old summer time was made to the home of Miss Ida Wilbur on Cypress Street, where more games were played and where cake and cocoa were served. Autumn was staged at the home of Helen Hartwig on Acacia Street. There guests were entertained with fortune telling and hallowe'en stunts and refreshments. Those who participated were: Florence Johnson of Hyde Park, Hazel Griswold, Ernestine Olmstead, Norma Wallace and the hostesses already named, the boys being: Andrew Ballantyne, Walter Sullivan, Lois Griswold, Harry and Neville Richardson, Masuri Horii, John Ferber, Richard Ryan and Herbert Brucks, also the teachers of the classes of Miss Carol Duncan and F. C. Richardson.

JODONS BUY HOME ON CENTRAL AVENUE

R. P. Jodon has bought the Britton place at 157 South Central Avenue and will move in Monday. The family have been living at 224 South Louise for a few years and the recent sale of it to J. M. Leek forced them to find a new home.

TRUSTEES' MEETING

(Continued from Page 1)

been referred to him for investigation. In the opinion of the City Manager, the pump already installed by Mr. Friedman on Central Avenue near San Fernando Road, is sufficient to take care of the gasoline business at that location. On motion of Trustee Shaw, the application was denied on roll call, all voting aye.

The City Manager submitted a report in regard to the float entered by the City of Glendale, at the Pasadena Tournament of Roses, and which had been awarded the first prize of its class. The report expressed the appreciation of those city employes through whose efforts the work had been accomplished, for the aid given them by many individuals and particularly by the business men of the city who had been most liberal in their donations, the contributions from that source amounting to $233.50, while it would have been easy to have collected twice as much. Mr. L. W. Chobe, building inspector, furnished the design of the float. Before deciding on the design a committee consisting of Recorder F .H. Lowe, Building Inspector Chobe, Auditor of the Public Service Department, and Fire Chief Lankford, had visited Pasadena and acquired valuable information. The committee in charge of construction consisted of L. W. Chobe, Building Inspector; W. L. Nelson, Street Foreman and A. H. Lankford, Fire Chief. Judge Lowe was treasurer of the Subscription fund and was assisted in soliciting by Mr. H. A. Eddy, City Engineer.

The approximate cost of the float was $300, but it was estimated that if all the labor put upon it had been paid for, it would represent an expenditure of about $1500.

A written report was presented from the City Manager in regard to the recent order issued by the Railroad Commission of the State in regard to the use of natural gas. The communication calls attention to the fact that under this ruling it is probable that the City of Glendale will not be able to obtain natural gas during the coming summer for the operation of the steam pumping plant on the San Fernando Road. The communication stated that it is absolutely necessary that this plant be operated and if natural gas can not be obtained the city will be at a large expense to install oil burners and other equipment, which can only be used in the interval preceding the installation of electric machinery now under consideration. It was recommended therefore that the Trustees instruct the City Attorney to make an effort to obtain a modification of the order.

On motion of Trustee Shaw instructions were given the City Attorney in accordance with the recommendation.

The City Manager presented a report in regard to traffic conditions on Los Feliz Road between the west city boundary and Brand Boulevard. The communication stated that owing to existing conditions the accommodations of this thoroughfare are entirely inadequate to afford facilities for the heavy traffic on that thoroughfare. The communication stated in conclusion that in the opinion of the City Manager the road would be widened by taking land from the south side of Los Feliz Road, from San Fernando to Central Avenue, and on the north side from Central Avenue to Brand and that a district be established, which should be assessed to meet the expense. On motion of Trustee Shaw the matter was referred to the City Manager to bring in a report on the matter.

Two delayed communications were read, one from David Carney, the other from J. W. Fairchild, under date of December 22, 1919, protesting against the abandonment of the alley south of Broadway between Brand Boulevard and Maryland Avenue.

Another protest was also read, from C. A. Bunting in regard to the same matter, under date of January 2, 1920. The communications were ordered to be filed.

Finance Committee reported back, approved, demands, which on motion of Trustee Shaw were ordered to be paid.

The report of the City Recorder for the month of December was presented and ordered to be filed.

An application was presented from Elmer Patterson, asking for a permit to conduct an auto bus, which being approved by the City Marshal, was on motion of Trustee Henry granted. The City Manager presented easements to be executed by the City of Glendale to the Los Angeles County Flood Control District of lands to be used as a channel for the flood waters of Verdugo wash. On motion of Trustee Shaw, the chairman of the Board, and City Clerk, were instructed to sign the same.

A communication was presented by the City Attorney in reference to the authority of the City to extend the City's lighting system to the recently annexed Grand View territory. The City Attorney expressed the opinion that regardless of the outcome of the pending suit in regard to the validity of consolidation proceedings, the City has legal right to take this action. The City Manager reported that the estimated cost of this extension would be about $3100.

On motion of Trustee Shaw the City Manager was instructed to present to the Board, plans and specifications for the extension of the street lighting system to the West Glendale and Kenilworth annexation districts.

The City Manager made a statement in regard to the needs of the Public Service Department in regard to material for the extension and betterment of the service, and on motion of Trustee Woodberry. The City Clerk was authorized to advertise for 500 feet 16-inch well casing. Bids to be open at 8 p. m. January 15, 1920.

SEVENTIETH BIRTHDAY

RELATIVES OF WILLIAM F. COLLINS GATHER TO HONOR HIS NATAL DAY

Many were the relatives of Mr. Collins gathered at his home, 228 North Kenwood Street, Sunday, December 28, to celebrate his seventieth birthday.

His daughter, Luella, knowing that that her father's birthday was approaching, and that a large number of his relatives were living in and around Los Angeles, thought it would be a little out of the ordinary to make the occasion a surprise to her father. To that end invitations were sent to the families of the relatives announcing her intention, and asking them to be present on the occasion at the appointed time. They were there in full force. But previous to their coming, Mr. Collins had been invited to take a walk with one of the party who had been delegated for that purpose, with instructions to return at two o'clock, as dinner would be ready at that hour.

During their absence, the invited guests marched in a body to the residence and there awaited the return of the men who had gone for a walk. As Mr. Collins entered his home, imagine his eyes grow—(not quite as large as saucers) when he saw the crowd of familiar faces that he had often gazed upon in the long ago. Imagine him saying to himself: "What does this all mean? O, yes, my birthday, but why make such an ado about it when we all have them."

Congratulations continued right along until dinner was announced, and all being seated, gave good evidence that they had brought their appetites with them.

The hours were spent in conversation relating to bygone days when guests were boys and girls. Choice musical selections were rendered on the piano, accompanied by voices that knew how to sing.

As the day was far spent and the night coming on, the happy crowd began to take their departure for their various homes, feeling that it had been a profitable and enjoyable occasion.

Bidding Mr. Collins and his estimable daughter good night, they wished him much happiness and many returns of the day.

Those present were W. F. Collins and daughter, Luella, of Glendale, Howard Collins of Pomona, Mr. and Mrs. Chas. W. Carr and their infant son, James, of Azusa, Mr. and Mrs. J. C. Obert, Edgar and Lewis Obert, and Myrtle Obert of South Pasadena, Mr. and Mrs. Wm. Wiggins and daughters, Miss Cora and Lois Wiggins, of Long Beach, Mr. and Mrs. Ed Collins and grandson, Howard McIntyre, of Los Angeles, Mr. and Mrs. Walter Price of Los Angeles, Anny Holden and son, Omar, of Los Angeles, Wm. Drysdale of Los Angeles.

The willingness to take risks is, in the great merchant or capitalist a virtue. It is to him what courage is to a soldier, or imagination to a poet. But the willingness to take rists is, in the wage earner or the salary earner, a weakness, yes, even a vice. The contrary of the vice of gambling is the virtue of thrift, and the system of life insurance has given the thrifty man his opportunity.—David Lloyd George.

Daily production of petroleum in California during November averaged 270,339 barrels.
